The Tiangong Space Station (TiangongSpaceStation) is China's first space laboratory, with more than 110 cubic meters of usable space. It can accommodate three astronauts and operates in orbit 400-450 kilometers above Earth's surface. It has carried out more than 180 scientific research and application projects, involving fields such as space life sciences, space medicine, and space materials science. Its research achievements have been widely applied in China and have produced significant economic benefits. For example, space breeding has generated direct economic benefits of up to several hundred billion yuan. This not only marks China's tremendous progress in aerospace technology, but also shows that China has made major contributions to global space research and applications.

A Spring Festival couplet consists of a pair of poetic lines and a four-character horizontal scroll. The lines and the horizontal scroll are written in gold or black on red paper; red represents luck, and gold represents wealth. Spring Festival couplets are pasted on the left and right sides of the front door and above the doorframe. Their poetic lines reflect the features of traditional Chinese poetry: the two lines have the same number of characters and related meanings. The horizontal scroll highlights the theme of the couplet and makes it even more perfect. Spring Festival couplets use concise words to describe vivid images and express good wishes. When every household puts up Spring Festival couplets, people realize that the Spring Festival has officially begun.

26. (2022.9) 自古以来, 印章在中国就是身份的凭证和权力的象征。印章不仅具有实用性, 而且也是一种艺术形式, 是一门集书法与雕刻于一体的古老艺术, 经常被看作与书画并列的独立艺术品。印章从材料的选择、制作的工艺到字体的设计, 都具有极其丰富的美学表现。其他国家的艺术家通常在其绘画作品上签名, 而中国艺术家则往往在其书画作品上盖上印章代替签名。这样, 印章也就成为作品的组成部分, 是体现作品独特性的一种方式。

Since ancient times, seals have been a certificate of identity and a symbol of power in China. Seals are not only practical but also an art form—an ancient art that integrates calligraphy and carving—and are often regarded as independent artworks alongside calligraphy and painting. From the choice of materials and the craftsmanship of production to the design of scripts, seals possess extremely rich aesthetic expression. Artists in other countries usually sign their paintings, while Chinese artists often stamp seals on their calligraphy and painting works instead of signing them. In this way, seals become part of the work and a means of reflecting its uniqueness.

The headquarters building of China Central Television is located in Chaoyang District, Beijing. Its total construction area is approximately 550,000 square meters. The main building consists of two towers. Due to its unique design, it has become a popular tourist attraction in the city, attracting numerous visitors every day. The innovative structure of the building is the result of sustained cooperation between Chinese and foreign architects. It not only embodies environmental awareness but also significantly reduces the use of building materials. The

headquarters of China Central Television has a dedicated passage running through the building, which showcases various studios and the history of China Central Television to the public. There, visitors can also enjoy the magnificent views of the Forbidden City and other places in Beijing.

Lugou Bridge is located 15 kilometers southwest of Tiananmen Square and spans the Yongding River. It is the oldest existing multi-arch stone bridge in Beijing. The bridge was first completed in 1192 and rebuilt in 1698, supported by 281 pillars. Each pillar has a stone lion on it. On the heads, backs, bellies, or claws of these stone lions, even more lions are hidden. These stone lions are vivid, lifelike, and varied in form, and are masterpieces of the stone-carving art of Lugou Bridge. The stone lions on the bridge are countless, so there is a saying in the Beijing area: “The stone lions on Lugou Bridge are impossible to count.” Lugou Bridge is not only world-famous for its aesthetic features, but also recognized as a monument in the history of stone bridge architecture.

29. (2022.6) 南京长江大桥是长江上首座由中国设计、采用国产材料建造的铁路、公路两用桥，上层的 4 车道公路桥长 4589 米，下层的双轨道铁路桥长 6772 米。铁路桥连接原来的天津一浦口和上海—南京两条铁路线，使火车过江从过去一个半小时缩短为现在的 2 分钟。大桥是南北交通的重要枢纽，也是南京的著名景点之一。南京长江大桥的建成标志着中国桥梁建设的一个飞跃，大大方便了长江两岸的物资交流和人员来往，对促进经济发展和改善人民生活起到了巨大作用。

The Nanjing Yangtze River Bridge is the first dual-purpose railway and highway bridge over the Yangtze River designed by China and built with domestically produced materials. Its upper four-lane highway bridge is 4,589 meters long, and its lower double-track railway bridge is 6,772 meters long. The railway bridge connects the former Tianjin-Pukou and Shanghai-Nanjing railway lines, shortening the time for trains to cross the river from the previous one and a half hours to the current two minutes. The bridge is an important hub for north-south transportation and also one of Nanjing's famous scenic spots. The completion of the Nanjing Yangtze River Bridge marked a leap in China's bridge construction, greatly facilitated the exchange of goods and the movement of people between the two banks of the Yangtze River, and played a huge role in promoting economic development and improving people's lives.

30. (2022.6) 赵州桥建于隋朝，公元 605 年左右，长 50.82 米，宽 9.6 米，跨度 37.37 米。天才建筑师李春设计并监督了桥的建设。赵州桥结构新颖、造型优美。桥有一个大拱，在大拱的两端有两个小拱，帮助排泄洪水、减轻桥梁重量并节省石材。建成以来，该桥经受了多次洪水和地震，但其主体结构仍然完好无损，至今仍在使使用。赵州桥是世界桥梁建筑史上的一次创举，是中国古代文明史上的一项杰出成就。类似设计的桥梁直到 14 世纪才在欧洲出现，比赵州桥晚了 700 多年。

Zhaozhou Bridge was built in the Sui Dynasty, around AD 605. It is 50.82 meters long, 9.6 meters wide, and has a span of 37.37 meters. The gifted architect Li Chun designed and supervised the construction of the bridge. Zhaozhou Bridge has a novel structure and a graceful shape. The bridge has one large arch, with two small arches at the ends of the large arch, which help discharge floodwaters, reduce the bridge's weight, and save stone. Since

its completion, the bridge has withstood many floods and earthquakes, yet its main structure remains intact and it is still in use today. Zhaozhou Bridge was a pioneering achievement in the history of world bridge architecture and an outstanding accomplishment in the history of ancient Chinese civilization. Bridges with similar designs did not appear in Europe until the 14th century, more than 700 years later than Zhaozhou Bridge.

2.1 开头段

使用逻辑: 给定首句之后, 开头段只需完成“承接背景、迅速定性、提出立场”三件事。以下句子不再按积极、危机或平衡分类, 而是统一作为通用观点句使用, 可根据题目替换主语或少量宾语。

1. 角色必要: plays a pivotal role in personal advancement, making ... a practical necessity .
2. 选必超越: is no longer optional but imperative , moving beyond...preference into a broader...that deserves...
3. 重要需措: ... is not only integral to ... but also calls for concrete measures to ...
4. 必需防线: indispensable, serving as a reliable defense against stagnation, obsolescence, and counterproductive habits.
5. 解毒冲表: This approach serves as an antidote to impulsive choices, superficial ambition, and immediate gains.
6. 源自优先: ... grows out of foundational mastery. It must take precedence over ...
7. 困境侵蚀: This appealing notion captures a modern dilemma where...while gradually weakening...
8. 压力审视: ... is under growing pressure, which makes it imperative to cultivate disciplined habits of scrutiny.
9. 利用保卫: ... harness the benefits of this development while safeguarding individual rights and ethical boundaries.
10. 边缘替代: mustn't inadvertently marginalize those..., so accessible alternatives should be preserved alongside...

 **笔记** 口诀: 角选重, 防解源, 困压利边。它对应 10 个 item:

1. 角: plays a pivotal role in ...making ...a practical necessity
2. 选: is no longer optional but imperative
3. 重: is not only integral to ...but also calls for concrete measures to ...
4. 防: serving as a reliable defense against ...
5. 解: serves as an antidote to ...
6. 源: grows out of foundational mastery / take precedence over ...
7. 困: captures a modern dilemma where ...
8. 压: is under growing pressure, which makes it imperative to cultivate ...
9. 利: harness the benefits of ...while safeguarding ...

10. 边: mustn't inadvertently marginalize .../ alternatives should be preserved

你把开头段想成一个“小法庭陈述”:

1. 先定性: 这个东西不是普通选择, 它有角色、有必要、有措施。所以是角、选、重。
2. 然后说它为什么值得支持: 它能当防线, 能当解药, 但它不能凭空来, 必须建立在根基上。所以是防、解、源。
3. 最后加入成熟立场: 它也有困境和压力, 所以要一边利用好处, 一边守住边界, 不能把弱势者排除出去。所以是困、压、利、边。

考场调用时, 你不用想完整句子, 只问自己三个问题:

1. 我要不要把主题定成“必要”? 角 / 选 / 重
2. 我要不要说它有什么正面功能? 防 / 解 / 源
3. 我要不要显得观点成熟、有边界? 困 / 压 / 利 / 边

最实用的背法是直接背这一串:

1. 角选重, 防解源, 困压利边。
2. 角色必要, 选必超越, 重要需措;
3. 必需防线, 解毒冲表, 源自优先;
4. 困境侵蚀, 压力审视, 利用保卫, 边缘替代。

2.2 第二段

2.2.1 背景重述 (摇身一变)

1. 隐藏背景: ...emerged against a backdrop of ...beneath the seemingly ... surface of ..., where ...have become more apparent.
2. 环境充斥: In an environment saturated with..., emerging patterns are fundamentally altering how people...
3. 清晰可见: plainly visible across contemporary society, where personal choices are increasingly shaped by ...
4. 同步发展: As...evolve in step with...,...are reaching unprecedented levels.
5. 适应渴望: reflects...adjustment to accelerated change and a deepening yearning for a stable sense of...
6. 小众永久: What was once met with hesitation as a marginal notion has shifted from a transient novelty to a permanent feature of...
7. 成为主流: Once approached with hesitation as a peripheral concern, ...moved from the margins to the mainstream of ...
8. 从何看出: become a standard feature of..., as seen in the growing reliance on.../ widespread use of ...
9. 相关实践: Related practices have been woven into everyday routines, influencing how people...
10. 嵌入生活: deeply embedded in contemporary routines and career trajectories.
11. 抽象具体: is reflected in the way abstract awareness is increasingly translated into concrete daily choices...

笔记 背景重述这一节不要背成 11 句, 它只做一件事: 把题目里的现象放回时代背景里, 让读者觉得“这不是孤立事件, 而是时代结构的一部分”。

你把 11 条压成 4 步:

1. 铺背景: 隐藏背景 / 环境充斥
2. 见趋势: 清晰可见 / 同步发展 / 适应渴望

3. 变常态：小众永久 / 成为主流 / 从何看出

4. 入生活：相关实践 / 嵌入生活 / 抽象具体

口诀：隐环显同渴，暂主标织嵌具。

1. 背：emerged against a backdrop of ...beneath the seemingly ...surface of ...

2. 环：In an environment saturated with ...

3. 显：plainly visible across contemporary society

4. 同：evolve in step with ...

5. 渴：reflects adjustment to accelerated change and a deepening yearning for ...

6. 暂：shifted from a transient novelty to a permanent feature of ...

7. 主：moved from the margins to the mainstream of ...

8. 标：become a standard feature of ...as seen in ...

9. 织：been woven into everyday routines

10. 嵌：deeply embedded in contemporary routines and career trajectories

11. 具：abstract awareness is translated into concrete daily choices

你把它想成镜头推进：

1. 先拉远景：这个现象背后有时代背景和信息环境。

2. 再给趋势：它在社会中清晰可见，并且和技术、制度、公众期待同步发展。

3. 再写常态化：它从边缘走向主流，从短暂新鲜事变成稳定特征。

4. 最后落到生活：它被编入日常惯例，并把抽象意识变成具体选择。

考场调用时这样选：

1. 想写大背景：背 / 环

2. 想写社会可见性：显 / 同 / 渴

3. 想写趋势常态化：暂 / 主 / 标

4. 想写生活落点：织 / 嵌 / 具

它的画面是：先看时代背景，再看社会趋势，再看主流化过程，最后看它怎样钻进日常生活。

2.2.2 举例论证

1. 概念具象：In concrete terms, this logic appears when abstract ideals are translated into practice through...

2. 过程拆解：More specifically, breaking an aim into stages can convert intention into sustained progress.

3. 路径对照：A case in point is ..., whose value lies not in ...alone, but in ...

4. 条件支撑：Notably, the effect becomes durable only when...is reinforced by conditions that preserve ...

5. 多元协同：As evidence of this principle, ...can coordinate across actors, resources, and settings to...

6. 优势整合：A more convincing example is ..., where... combines ... with ...instead of isolating one factor from another.

7. 风险阻断：To illustrate this point, timely adjustment can prevent ... from escalating into wider costs.

8. 兜底补充：In concrete terms, responsible arrangements are exemplified by supplementary channels that remain available when...

9. 审慎落地：Notably, mature implementation appears when abstract caution is translated into concrete procedure.

10. 反面验证: **By contrast**, when...is left unchecked, it may **amplify avoidable harm**. A disciplined response can...

笔记 举例论证不要背成固定例子，而要背成 5 组论证动作。题目给什么材料，都先判断它承担哪一种证明任务：

1. 落地类：概念具象 / 过程拆解
2. 比较类：路径对照 / 条件支撑
3. 协同类：多元协同 / 优势整合
4. 保障类：风险阻断 / 兜底补充
5. 校正类：审慎落地 / 反面验证

口诀：具拆，对条，协合，阻兜，审反。

展开就是：

1. 具：In concrete terms, this logic appears when abstract ideals are translated into practice.
2. 拆：More specifically, breaking an aim into stages can convert intention into sustained progress.
3. 对：A case in point is ...not in ...alone, but in ...
4. 条：Notably, the effect becomes durable only when ...is reinforced by conditions that preserve ...
5. 协：As evidence of this principle, ...coordinate across actors, resources, and settings.
6. 合：A more convincing example combines ...with ...instead of isolating one factor from another.
7. 阻：To illustrate this point, timely adjustment prevents ...from escalating into wider costs.
8. 兜：In concrete terms, responsible arrangements are exemplified by supplementary channels.
9. 审：Notably, mature implementation appears when abstract caution is translated into concrete procedure.
10. 反：By contrast, when ...is left unchecked, it may amplify avoidable harm.

你把它想成“不是背例子，而是给例子安排任务”：

1. 抽象观点太空，就用概念具象、过程拆解。
2. 想证明不是表面功夫，就用路径对照、条件支撑。
3. 论据涉及多人、多资源、多场景，就用多元协同、优势整合。
4. 担心失控或不公平，就用风险阻断、兜底补充。
5. 想显得有思辨，就用审慎落地、反面验证。

考场调用时不要先问“我有没有某个固定例子”，先问“这个例子承担什么论证功能”：

1. 要把理念变实：具 / 拆
2. 要把优劣讲清：对 / 条
3. 要把合力写出来：协 / 合
4. 要把边界补上：阻 / 兜
5. 要把反面压住：审 / 反

最短记忆版就背这一句：具拆，对条，协合，阻兜，审反。它像一条论证流水线：先把观点变成画面，再拆开过程；接着比较路径、补足条件；然后写协同与整合；最后用风险阻断、兜底安排、审慎落地和反面验证把逻辑收紧。

2.2.3 因此

建议：Consequently / As a consequence 做主力结果句；Accordingly 用来写“随之需要调整”；It follows that 用来写逻辑结论；Apart from the obvious benefits 只保留少量，用来写“表层收益之外的显化结果”。

1. As demanding routines and cultures of comparison become increasingly normalized, emotional strain, fragmented attention, and the erosion of authentic standards of personal worth are becoming more apparent.
2. 重塑形式：traditional forms of... have been fundamentally reshaped by... that increasingly mediate...
3. 模糊界限：boundaries across... have been substantially blurred.
4. 重组形式：are being reorganized around more flexible and coordinated forms of...engagement.
5. 转向而非：expectations are shifting toward demonstrable competence rather than passive familiarity with...
6. 零星变多：moves from sporadic... toward organized and reliable participation.
7. 除障使得：systematically dismantle communication barriers and render cooperation more sustainable.
8. 渠道增多：gain wider access to necessary resources when modern systems remain both efficient and inclusive.
9. 跟随标志：It follows that ... has become a visible marker of maturity amid a rising tide of ...

笔记 因此这一节本质不是“举例”，而是写前面现象带来的结果。你把它背成一条变化链：

1. 显现 → 重塑 → 模糊 → 重组 → 转向 → 扩大 → 除障 → 增渠 → 成标志

口诀：

1. 显重模组，转扩除渠标。

对应 9 个按钮：

1. 显：are becoming more apparent
2. 重：have been fundamentally reshaped by
3. 模：have been substantially blurred
4. 组：are being reorganized around
5. 转：are shifting toward ...rather than ...
6. 扩：moves from sporadic ...toward organized and reliable participation
7. 除：systematically dismantle ...barriers and render ...more sustainable
8. 渠：gain wider access to ...when systems remain both efficient and inclusive
9. 标：It follows that ...has become a visible marker of maturity amid a rising tide of ...

你把它想成一个城市改造过程：

1. 先是问题越来越明显：显。
2. 然后旧结构被改造：重塑、模糊、重组。
3. 接着评价标准变了：转向。
4. 再往外扩散：零星变多、消除障碍、渠道增多。
5. 最后变成成熟社会的标志：成标志。

考场调用时这样选：

1. 写负面后果：显
2. 写时代变化：重 / 模 / 组
3. 写评价标准变化：转
4. 写参与扩大：扩
5. 写制度改善：除 / 渠

6. 写总结升格：标

它的画面是：问题显现，结构重塑，边界模糊，形式重组，标准转向，参与扩大，障碍拆除，渠道增加，最后成为成熟标志。

2.3 第三段

统一套路：承接第二段结果 -> 表层解释 -> 深层机制 -> 辩证限制 -> 目的导向收束。这套最稳，因为积极题可以写“不要停留在表层好处”，消极题可以写“不要被表层便利迷惑”，平衡题可以写“真正关键在边界和目的”。

笔记 表层解释这一节不要背 21 条，它本质只是在回答一个问题：为什么这个东西表面上有吸引力？

你把 21 条压成 6 类：

1. 背景需求：因素 / 契合 / 需求

2. 效率便利：效用 / 敏捷 / 门槛 / 成本
3. 秩序工具：框架 / 确定 / 效率 / 竞争
4. 正常转化：正常化 / 抽象变具体 / 便利之外
5. 资源自由：加速获取 / 重新校准 / 自主选择
6. 减压协作：防升级 / 信息流通 / 目标拆解 / 缓冲压力

最短口诀：

1. 因契需，效敏门成；框确定竞，常具便；资校自，防通拆压。

对应关系：

1. 因：Several visible factors account for ...
2. 契：is closely aligned with ...
3. 需：addresses a widespread demand for ...
4. 效：delivers immediate utility ...
5. 敏：respond with greater agility ...

18. 防：keeps manageable tensions from developing into ...
19. 通：accelerate information circulation / mitigate ambiguity
20. 拆：converting vague ambitions into attainable stages
21. 压：cushions ...from pressure / stems the tide of burnout

你把它想成一个人被这个东西吸引的全过程：

1. 先是时代逼他：因素、契合、需求。
2. 然后他发现好用：效用、敏捷、降门槛、省成本。
3. 接着他觉得稳：有框架、少不确定、提效率、保竞争力。
4. 再后来它变成常态：正常化、抽象变具体、便利之外还有结构。
5. 最后落到个人体验：资源更多、安排更灵活、选择更自由、压力更小。

考场调用规则：

1. 写科技/平台：效、资、通、常
2. 写学习/就业：竞、拆、压、校
3. 写心理/选择：自、确、压、防

4. 写社会参与：门、具、通、便

5. 写宏观开头：因、契、需

最短只背这一句：因契需，效敏门成；框确定竟，常具便；资校自，防通拆压。

它不是诗，但像一串按钮。考试时你不用从 21 句里找，只要先判断你要写“需求、便利、秩序、常态、资源、减压”哪一类，再按按钮。
